Subject: Updated Comment Summary and Page Count
Attachments: 6217 OR Public Comment Page Count.xls; Summary of Public Comments.xlsx

All--

See attached for an updated Excel summary of all the comments received. I added a few additional comments that we had missed.

Our total is now 85 comments from 84 individuals. 50 supportive of proposed disapproval; 21 against and 13 either did not state an opinion or wanted OR to do more to protect water quality but were opposed to penalties.

I also had someone in my office determine how many pgs each comment contained (also attached). The 85 comments (and their attachments) represent 973 pages of information (averaging ~11 pgs per comment although you can see most were in the 1-4 pg realm. NOTE: this does not include all of the 800+ attachments NWEA provided (many quite lengthy docs) or the 13 attached reports and research papers Beyond Toxics included with their comments.)

Allison
